Forensics included in "non forensic" data? No

**Note:**

US totals are based on states reporting.

This table uses data from URS/DIG Tables 20a and 20b.

State Notes:

See General Notes

**Structure Domain: Federal Mental Health Block Grant Expenditures for Non-Direct Service Activities, FY 2012**  
**Colorado**

Service	Non-Direct Block Grant Expenditures	% Total	US % Total
Technical Assistance Activities	\$512	0.1%	35.8%
Planning Council	\$30,033	5.7%	3.5%
Administration	\$438,352	82.9%	24.7%
Data Collection/Reporting	\$59,875	11.3%	6.5%
Other Activities	-	-	29.5%
Total	\$528,772	100.0%	100.0%

Note: This table use data from URS/DIG Table 8.

**State Notes:**

Data collection/reporting is not part of the 5% Block Grant administration.

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Expenditures for Mental Health, FY 2010**

**STATE Colorado**

	Expenditures: State	Percent of Total Expenditures: State	Expenditures: U.S.	Percent of Total Expenditures: U.S.
State Hospitals-Inpatient	\$113,523,862	26%	\$9,395,842,701	25%
Other 24-Hour Care	\$4,026,803	1%	\$6,759,114,778	18%
Ambulatory/Community	\$323,330,116	73%	\$20,604,143,980	55%
Total	\$443,227,875	-	\$37,608,180,077	-

**Note:**

Other 24-Hour Care includes state psychiatric hospital and community based other 24-hour as well as community based inpatient expenditures.

Ambulatory/Community includes expenditures for less than 24-hour care services provided at state psychiatric hospitals. It excludes community based other-24 hour and community based inpatient expenditures.

Total also includes additional SMHA Expenditures for research, training, administration, and other central and regional office expenditures.

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2010 reports - Table 18 "SMHA-Controlled Expenditures for Mental Health Services."

U.S. totals are based on 50 states reporting.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

**STRUCTURE DOMAIN: State Mental Health Agency Controlled Revenues by Funding Sources, FY 2010**

**STATE Colorado**

Funding Source	Ambulatory/Community			State Hospital		
	State Revenues	Percent Total (State)	Percent Total (US)	State Revenues	Percent Total (State)	Percent Total (US)
Medicaid	\$268,827,412	82.9%	58.4%	\$6,697,484	5.7%	23.5%
Community MH Block Grant	\$5,400,484	1.7%	1.4%	-	-	0.0%
Other SAMHSA	\$806,568	0.2%	0.4%	-	-	0.0%
other Federal(non-SAMHSA)	\$734,695	0.2%	2.2%	\$8,815,984	7.5%	4.6%
State	\$48,328,376	14.9%	30.7%	\$99,249,634	85.0%	67.4%
Other	-	-	4.8%	\$1,364,175	1.2%	3.6%
Total	\$324,097,535	100.0%	100.0%	\$116,783,246	100.0%	100.0%

**Note:**

Data from NRI's Funding Sources and Expenditures of State Mental Health Agencies, FY 2010 reports - State Mental Health Agency Controlled Expenditures and Revenues, Table 24, 25, and 26.

This table does not show Revenues for state central office including Research, Training, and Administration expenses.

More information on the State Mental Health Agency's Revenues & Expenditures as well as State Footnotes can be found on the NRI website:  
<http://www.nri-inc.org/projects/Profiles/RevenuesExpenditures.cfm>

Mental Health Center of Boulder County/Mental Health Partners	1333 Iris Ave., Boulder, CO 80304		\$26,823	\$7,566

URS Table Number	General Notes
11	<p>Number of surveys attempted: FY11 (Adult N=4,375/Youth N=2,650) represents the number of surveys sent to the mental health centers in Colorado. FY12 (Adult N=18,887/Youth N=8,770) represents the number of consumers seen during the 3-week period (all consumers seen were offered a survey during this 3 week period). Number of survey contacts made: For FY11 (Adult N=3,743/Youth N=Not reported), mental health centers recorded a tally of the surveys physically handed out to each consumer during the 3-week period. For FY12, it was deemed too difficult for center staff to keep track of the number of surveys distributed. In response, DBH requested the number of consumers seen during the 3-week period (Adult N=18,877/Youth N=8,770) and as mentioned above, all consumers seen were offered a survey during this 3 week period. Number of surveys completed: FY11 (Adult N=2,327/Youth N=924) completed surveys. FY12 (Adult N=2,396/ Youth N=918) completed surveys. Response rate: Given the change in methodology, response rates dropped between FY11 and FY12, while the number of completed surveys remained consistent.</p>
12	<p>There are two reasons for the increase in percentage of children served with co-occurring disorders between 2011 and 2012. In FY 2012 Colorado began collecting data from residential treatment facilities and clients at this level of care are more likely to have co-occurring disorders than clients in outpatient services. In addition, in the last few years in Colorado, a number of mergers or acquisitions have occurred that have seen Community Mental Health Centers (CMHCs) merging with or acquiring independent substance treatment programs/facilities while and other CMHCs have expanded their service array to include SUD treatment. Both of these result in better identification of under-18 year olds with co-occurring disorders and serving a wider net of clients, who are more likely to include those with substance use disorders.</p>
15	<p>The increase in number of those served in jails and correctional facilities is due to new State funding for Jail Based Behavioral Health Services (JBBS) that serves people with behavioral health needs while incarcerated. In addition there has been a gradual increase in the number of people served by the Criminal Justice Clinical Specialist (CJCS) grant which is a program designed to support the transition from being incarcerated to living in the community for people with behavioral health needs. The increase in number of homeless persons served is due to the expansion of the State's PATH program, a program designed to serve people with behavioral health needs who are homeless.</p>
16	<p>Supported Employment: Three of the 17 community mental health centers in Colorado conduct fidelity monitoring on their Supported Employment Program via the Mental Health Transformation Grant. These three centers include Mental Health Partners, Mental Health Center of Denver, and Jefferson Center for Mental Health. The Dartmouth-developed fidelity protocol for the Individual Placement and Support (IPS) model is used to measure fidelity annually and fidelity scores are submitted to the Colorado Division of Behavioral Health (DBH). DBH conducts the fidelity review. The supported employment program implementation at the three centers is consistent with the SAMHSA EBP Toolkit and staffs are trained in the EBP.</p>
16	<p>Assertive Community Treatment: Three of the 17 community mental health centers in Colorado conduct fidelity monitoring on their Assertive Community Treatment Program that is funded through the State General Fund. These three centers include Mental Health Partners, Mental Health Center of Denver, and San Luis Valley Mental Health Center. They use a modified version of the Dartmouth Assertive Community Treatment Scale (DACTS) to measure fidelity and fidelity scores are submitted to the Colorado Division of Behavioral Health (DBH) annually. The ACT program implementation at the three centers is consistent (with limited Colorado-specific variations in the fidelity protocol) with the SAMHSA EBP Toolkit and staff are trained in the EBP.</p>
16	<p>Supported Housing: The total N for Supported Housing is significantly reduced from last year's data (FY11 N=1,832). After reviewing the raw, original data from providers, the current N is accurate for the data that DBH has received, however we believe the actual numbers are higher and that there was a coding error at the level of the providers. DBH is in contact with providers in order to rectify this to obtain more accurate numbers.</p>
19A & 19B	<p>Total Number of people from which the sample was drawn: FY11 (Adult N=49,269/Youth N=26,699) represents the number of consumers served during the entire fiscal year. FY12 (Adult N=18,887/Youth N=8,770) represents the number of consumers seen during the 3-week period. Sample size: FY11 (Adult N=4,375/Youth N=2,650) these numbers represent the number of surveys provided to mental health centers for distribution. FY12 (Adult N=18,877/Youth N=8,770) represents the number of consumers seen during the 3-week period (all consumers seen were offered a survey during this 3 week period). Number of survey contacts made: For FY11 (Adult N=2,959/Youth N=1,087), mental health centers recorded a tally of the surveys physically handed out to each consumer during the 3-week period. For FY12, it was deemed too difficult for center staff to keep track of the number of surveys distributed. In response, DBH requested the number of clients seen during the 3-week period (Adult N=18,877/Youth N=8,770) and as mentioned above, all consumers seen were offered a survey during this 3 week period. Number of surveys complete: FY11 (Adult N=2,327/Youth N=924) completed surveys. FY12 (Adult N=2,396/Youth N=918) completed surveys. Response rate: Given the change in methodology, response rates dropped between FY11 and FY12, while the number of completed surveys remained consistent.</p>

URS Table Number	General Notes
20A	<p>The percent of readmission in 30 days and 180 days dropped from 2011 to 2012 for 2 main reasons: 1) the closure of a state hospital-run Therapeutic Residential Child Care Facility at the end of FY 11 (i.e., taking to zero the opportunity for the adolescent patients to discharge and readmit), and 2) 30-day re-admission rates became a performance improvement measure that was targeted by the State from January 2011 onwards. This resulted in an overall reduction of readmissions.</p>
